**RE: Water Availability for Highway Construction Project
SR-905**

Dear Mr. Waldo R. Lopez:

This letter is in response to the April 24, 2002 letter to The Otay Water District, which requests a letter from Otay Water District (OWD), indicating:

OWD has the adequate terminal water storage capacity to serve the above-referenced project. The Otay Water District (District) has no objection to this project. The project may be serviced from the 12-inch potable main on Airway Road and the 12-inch potable main on Siempre Viva Road, however you will be required to pay for all associated fees for this project. This project currently has no service lines in SR-905.

Should you have any questions, please contact me at (619) 670-2243.

Sincerely,

OTAY WATER DISTRICT

David T. Charles
Engineering Public Services Manager
